A thank you to Andre Bauer

135

Andre Bauer is a friend to the seniors of South Carolina. Since the Lieutenant Governor has assumed the responsibility of the Office on Aging, these folks have been recognized as a very important segment of the population.

The Silver Haired Legislature, which was created in 1999 in our state, was formed to identify issues, concerns and possible solutions for problems facing the aging population of South Carolina and to make recommendations to the Governor, General Assembly and various Departments and Agencies. They are not lobbyists.

Recently the funds that were allocated for this group were vetoed, but Mr. Bauer worked to get them restored in the budget. All the members of the SHL volunteer their time to keep informed about changes that may affect older citizens and to look for solutions or ways to improve them. A vote of thanks to Andre Bauer for his support.

Jean Bridges, West Columbia
